## Quiet Reading Room

The **W. David Denton Quiet Reading Room** is a designated study and reading area on the first floor of the Library.

The reading room is home to:

- Current and back issues of regional and national newspapers. Most newspapers are kept for one month, with the exception of the Paducah Sun (every issue).
- Current issues of popular magazines.
- Government research documents.

### **Library honors Denton's service**

**The McCracken County Public Library's Quiet Reading Room has been dedicated in the name of former library board chairman Dave Denton, who stepped down from the board last summer.**

**Serving from 1992-2006, Denton oversaw an increase in library usage from 12,000 people a month in 1992 to 31,000 today. Circulation also went from 220,740 items a year in to 616,207 last year.**

**Denton**

**Denton, a Paducah attorney, also helped the library go from being a city institution to one for the county, giving it financial stability. The newly named W. David Denton Reading Room is on the first floor, beyond the computer terminals.**
